## **Module 10: Integrating Academics into Global CTE Projects**

# **Activity Guide**

Funded through the generous support of

Your next steps are:

1. Connect with an academic teacher at your school and ask for their feedback on integrating academic content into one of your classroom projects.
2. Download and review the [Catch the Fever](#) instructional resource to see practical examples of how you can integrate academics into your global STEM project.
3. Read the blog post, [SCVTHS Students and Staff Receive Recognition at United Nations](#), to see the global impact of an academically integrated, global STEM project.
4. Analyze several [global STEM projects](#) to understand how each example integrated academics into the project.
5. Be sure to check the Asia Society Global CTE [Toolkit](#) for free tools and resources.

If you have just completed all 10 of the Career Readiness in a Global Economy modules, congratulations! You are well on your way to bringing global skills to your students. If you haven't completed all 10, we encourage you to do so.
