Module 9: Integrating Global Competence and Project Management into CTSOs

Activity Guide

Funded through the generous support of

Before moving onto another module, please complete these activities:

1. Review the [resources](#) for integrating a global focus service learning.
2. Design a plan to incorporate the [four global competence domains](#) into your CTSO leadership training.
3. Identify three current CSTO activities that could benefit from the PMIEF project management tools and templates. Include a global connection.
4. Access the Project Management Institute Education Foundation (PMIEF) [Teacher Toolkit](#) to review resources on assessing student performance in project management. In order to download the PMIEF Toolkit for Teachers, following these steps:
 - Create a free account with PMIEF to access the Teacher Toolkit materials using the link on the top of the page.
 - Select the PM Terminology version of the Toolkit for download.
 - Agree to the terms and conditions.
 - Download the full Toolkit, which includes five downloadable folders: Preface, Initiating, Planning, Executing, and Closing. Each folder has four components - Teacher Guide, Student Project Plan, Slide Deck, and an Appendix with additional resources and activities.
 - The Preface folder contains an introduction to the toolkit, background information on project management, and assessment tools.
5. Read these [Edutopia](#) and [Education Week](#) blogs about service learning and comment on them in the Forum.
6. Explore the Asia Society Global CTE [Toolkit](#) for free tools and resources.

When you have completed these activities, you will be ready to help your students add a global dimension to their service learning and CTSO activities.
